

05/28/2024

Dear Members of the Vista School Community,

I am writing to address a pressing issue that has profoundly impacted the well-being and functionality of our beloved institution. It is with a heavy heart that I bring to your attention the significant concerns surrounding the current school administration, which have culminated in the departure of numerous esteemed educators, including nearly the entire math department. I believe it is imperative to shed light on the factors contributing to this distressing situation, in hopes of fostering a healthier and more transparent environment for both staff and students.

Primary Concerns:

1. Inadequate Communication:

Communication at Vista School has been consistently problematic. Time-sensitive concerns often go unanswered, requiring multiple follow-ups and still remain unresolved after years of persistent efforts. This issue is particularly pronounced with Troy Bradshaw, the IT/Finance Director. Teachers have repeatedly encountered delays and obstructions when seeking assistance or resolutions to pressing matters.

2. Neglect by Administration:

Under the leadership of Principal Justin Blasko, there have been numerous instances where concerns were seemingly acknowledged but ultimately disregarded. On several occasions, I personally experienced a pattern where Mr. Blasko would appear to listen, take notes, and assure follow-up, only for the issue to be seemingly forgotten. A particularly distressing incident involved a significant concern regarding Mr. Bradshaw's handling of a situation. Despite the urgency, Mr. Blasko delayed meeting with me for a week, only to provide conflicting information that suggested either a lack of honesty or a concerted effort to control the narrative.

3. Unprofessional Conduct:

Mr. Bradshaw's conduct has been consistently unprofessional and inappropriate. He has been known to speak condescendingly and disrespectfully about teachers, other administrators, board members, and parents behind their backs. Furthermore, he has shared sensitive information about these individuals with staff members, which is highly unethical for someone in his position. Reports from colleagues indicate that he has also spoken disparagingly about me and my program, which is both demoralizing and unprofessional.

4. Bullying and Intimidation:

Mr. Bradshaw's behavior often borders on bullying and intimidation. He strategically ignores issues he is responsible for, shifts blame onto others, and uses intimidation tactics to get his way. This creates a toxic work environment that stifles open communication and hinders the effective resolution of problems.

Confidentiality Concerns:

I am choosing to remain anonymous because during my resignation meeting with Justin Blasko, I felt threatened by some of his comments and fear potential reprisals even though I have already resigned.

Call to Action:

In light of these concerns, I urge the relevant authorities to conduct a thorough investigation into the conduct of both Justin Blasko and Troy Bradshaw. Their behavior has significantly contributed to a toxic work environment, leading to the mass exodus of dedicated educators. An impartial inquiry into their actions and their impact on the school culture is essential to restoring trust and ensuring the well-being of both staff and students.

As an educator who has chosen to leave Vista School due to these unresolved issues, I hope that bringing these concerns to light will prompt necessary changes. It is my sincere belief that with transparency and accountability, Vista School can once again become a nurturing and supportive environment for all members of its community.

Thank you for your attention to this matter.

Sincerely,

A Concerned Former Educator of Vista School
